

Climax Launches Advanced Home Automation Features on M Series Control Panels

Powerful and Comprehensive Advanced Home Automation Rules and Scenes

Taipei, Taiwan—Nov 16, 2017— Advanced home automation features are now available on all Climax Technology’s control panels, including the M series panels, to provide users a powerful tool to make their homes safe, smart and more convenient. The M series control panel will require a software update and connection to Climax Home Portal Platform to have access to the advanced home automation features.

With the addition of interactive options, triggers, conditions, and actions available, the home automation features can be personalized for each individual user and change the entire mood and function of the home’s sounds, lights, and appliances. Using Climax’s new home automation features, users can further leverage enhanced smart home automation for improved comfort, safety, and lifestyle.

Automation Rules

Each HA Rule allows users to designate a series of Actions under certain Conditions based on a Trigger. The options available are dependent upon learnt devices connected to the Control Panel and each Rule can associate one Trigger type, two Conditions (optional), and up to five Actions. The added functionality and combinations are endless, with a user-friendly interface and straightforward automation creation process.

Automation Rules

Trigger	Condition	Action
Mode Change	Mode Type	Device Action
DC Open/Close	Time Period	Mode Change
Motion Detected	Temperature Range	Alarm
Schedule	Light Level Range	Apply Scene
Trigger Alarm	No Condition	Request Video/Image
Scene Button Pressed		
Temperature Above/Below		
Humidity Above/Below		
Power Consumption Above		

Automation Scenes

Home Automation Scenes allows users to activate a series of device actions, or automatically activate by a pre-programmed Rule. The options available are dependent upon learnt device connected to the Control Panel and up to five actions can be associated with each scene. It is so easy to create a smart, convenient, safe home!

Climax Technology will continue to add integrations and features to Climax Home Portal Platform, to further expand home safety and security for consumers and their loved ones.

About Climax

Climax is a security, telecare, and smart home complete-solutions provider that integrate wireless security, senior care, home automation, energy management, emergency monitoring, and live visual monitoring into innovative all-in-one solutions. For over three decades, Climax has applied its expertise in telecommunications and wireless radio frequency (RF) technologies to develop security features, such as world-leading 2-km RF range, VOIP, and reliable communications, into our security, senior care, and smart home solutions. Our company has relentlessly pursued perfection in technology, production, value and service with the objective of providing the best protection and care for every home and individual.
