

VRCP-WiFi Voice Call Point

Comprehensive Protection at Home

- Emergency Voice Call Point via Wi-Fi connection
- Voice Recognition
- Excellent Two-Way Voice Quality
- Long Communication Range

VRCP-WiFi is an AC-powered Emergency Voice Call Point with Voice Recognition capability and has a single button that can be used to make calls when there is an emergency. VRCP-WiFi works with routers that support Wi-Fi network to provide network connection for making outgoing voice calls, receiving incoming call, and two-way voice communication.

VRCP-WiFi has built-in voice recognition and can activate an emergency call to CMS by preset vocal commands or keywords. When an emergency happens at home, senior users with mobility difficulties can simply use the nearest Voice Call Point to summon help.

As a smart device, the VRCP-WiFi provides high-clarity, hands-free, two-way communication with Wi-Fi network in the event of an emergency. VRCP-WiFi is suitable for senior and medical care and ideal for multi-story homes and larger premises.
