

ZLR-1ZBS ZigBee Light Link Reset Button

Reconnect Your Lightings to Zigbee Connected Home System

ZLR-1ZBS is a ZigBee light link reset button designed to reset the connection of Phillips Hue bulbs or any ZigBee light bulbs to factory settings. It helps to reconnect your existing ZigBee lightings to any ZigBee home automation systems or home alarm systems. It helps your ZigBee lighting devices to interoperate effortlessly with other products using ZigBee standards. With the help of ZLR-1ZBS, it allows a user to flexibly reconfigure ZigBee lightings with any other home automation rules or any other system to create a more comfortable and pleasant home atmosphere.

Adopting the ZigBee Pro 1.2 standard, the ZLR-1ZBS can reset any ZigBee lightings from other manufactures. Its LED indicates the transmission of a reset signal to ZigBee lighting link devices.

Features

- Designed especially for lighting application
- Simple to use
- Reconnect the exiting lighting to any ZigBee home automation systems or home alarm systems
- The LED indicates the transmission of a reset signal to ZigBee lighting link devices
