

CTC-835 PROGRAMMER

The CTC-835 Programmer is designed for easy and convenient programming of medical alarm panels (CTC-792/1032/1039/1052/1052 Pro).

Integrating computer and communication capabilities, CTC-835 Programmer works as a powerful and efficient tool with the following features.

- **Easy Operation**

The CTC-835 program settings can be easily done by using its built-in user-friendly keypad to select LCD displayed options.

A complimentary Downloading Window Based Software “Pilot-835” is provided, which allows you to program and manage your CTC-835 settings efficiently from a Computer.

- **Local Programming**

By local programming, you can program your medical alarm panel on your site. Using a telephone cord, you can connect the CTC-835 Programmer to the medical alarm panel directly. No dialing is required.

- **Remote Programming**

With the user’s phone number and through a telephone line connection, CTC-835 Programmer allows you to remotely program your medical alarm panel conveniently without making trips.

- **Once-for-All Uploading**

CTC-835 lets you select the desired program settings. You can then upload the whole programmed menu of settings to the medical alarm panel simultaneously and completely.

Specifications:

- ◆ Power supply: DC 9V output and 500mA adaptor
- ◆ Battery: 7.4V 1000mAH Lithium rechargeable battery
- ◆ Battery backup time: 10 hours
- ◆ Dimension: 120mm*190mm*40mm

The CTC-835 Kit contains:

1. CTC-835 unit
2. 9V 500 mA Power Adaptor
3. RJ-11 telephone cord
4. RS-232 cable
5. “PILOT” CTC-835 software
