

808RV-R5 Voice Extender

Comprehensive Protection at Home

- Voice Extender via DECT network
- Excellent Two-Way Voice Quality
- Long Range

808RV-R5 is a Voice Extender that enables users to summon emergency help with a single button press. 808RV-R5 provides high-clarity, hands-free, two-way communication for making outgoing voice calls, and receiving incoming calls to summon help. It is suitable for senior and medical care, multistory homes, and larger premises.

808RV-R5 has a powerful speaker and a built-in microphone. It can be easily mounted or placed anywhere in the premises. Having multiple 808RV-R5 placed at strategic locations throughout the home can safeguard seniors in the event of an emergency. When an emergency happens, senior users can simply use the nearest 808RV-R5 to summon help. Knowing that senior users can timely speak with a CMS operator from anywhere in the home without difficulty provides an extra layer of protection and peace of mind.
