

WLS-16ZBS

Water Leak Sensor Series

Living Worried-free, Without Water trouble

The WLS-16-ZBS series of wireless ZigBee water leak sensor is designed to alert you before a large disaster happens and helps to reduce the risk of water damage. It is a perfect solution for monitoring water leaks in basement, garage, bathroom and kitchen or any place water leakage might occur. Completely wireless, WLS-16ZBS can be easily installed at anywhere and provide you with peace of mind.

WLS-16ZBS series is fully compatible with other manufacturers' ZigBee systems and provides two types of detection probes, one of which can be further extended by connecting additional optional water extension cables for different configurations to keep your home a much safer place to live.

Features

- Smart water leakage detection for wall mount
- Optional water extension cables for different applications and needs
- An alarm signal will be transmitted to the control panel when water is detected
- Long battery life
- LED indicator
- Low battery detection
- Compatible with other manufacturers' ZigBee systems
- Regular supervision signals to check system integrity
- Complied with CE requirements

Specifications

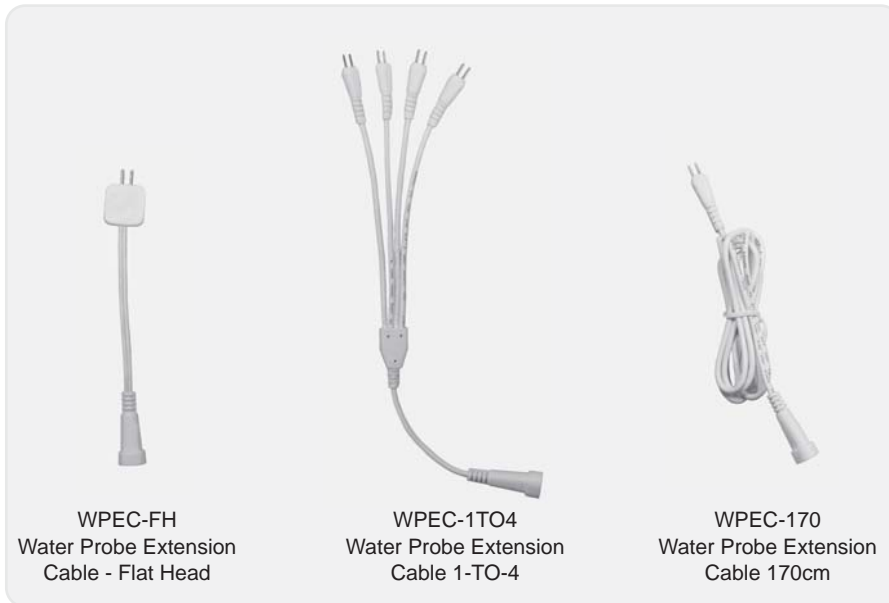

Communication Protocol	ZigBee Pro Home Automation 1.2
Frequency	2.4 GHz
Power Source	3V, CR123 Lithium battery x 1
Battery Life	9.8 years*
Probe Cable Length	30cm
Operating Temperature	-10°C to 45°C (14°F to 113°F)
Operating Humidity	Up to 85% non-condensing
Dimensions	WLS-16ZBS with screw design: 93mm x 31mm x 22.55mm WLS-16R3-ZBS with clasp hook design: 86.7mm x 31mm x 22.55mm

* Note: Actual battery life may vary with product settings, operating environment, and usage.
