

PSS-29ZW Z-Wave Power Switch

Green Power, Green Savings

The PSS-29ZW Z-Wave power switch is designed for the user to remotely turn on/off an electronic appliance via a smartphone or web browser anytime, anywhere. The integration of this device into your home automation system will allow you to conveniently control home appliances for comfort or energy-saving purposes. The PSS-29ZW also functions as a Z-Wave router to extend a security system's wireless communication range.

The PSS-29ZW is compatible with other manufacturers' Z-Wave systems, and the installation of the PSS-29ZW takes only a few simple steps. The slim-sized design of the PSS-29ZW blends naturally into any home décor. This switch enables you to control home appliances and reduce electricity bills. Creating a green home has never been easier!
