

RMB-35ZW Series Z-Wave Repeater Router & USB Power Adapter

US Plug

EU Plug

- Dual USB power adapter charger
- Interchangeable plug design
- Extends Z-Wave Network into Hard-to-Reach Areas

RMB-35ZW, a multifunctional AC powered Z-Wave repeater router with dual USB power adapter charger that allows you to charge any two smartphones, web-enabled devices, or other USB-charged devices. Capable of extending wireless signal to areas with blind spots, a solution for anyone who experiences poor wireless connection within their home or office. On top of having a small and compact size, the RMB-35ZW was designed with an interchangeable plug feature that can be easily switching between EU plug and US plug, further optimizing inventory management.

Multiple routers can be added to the system to extend the Z-Wave network to ensure comprehensive network coverage. Plugs directly into power socket for easy installation. With a rechargeable backup battery, the RMB-35ZW will be able to run in the event of power failure. The RMB-35ZW is compatible with other manufacturers' Z-Wave system and can be included and operated in any Z-Wave network. Ideal for both residential and commercial premises.
